OUR FACULTY

OUR FACULTY

OVERVIEW

Faculty of Arts & Social Sciences (FASS) was established in 2009. FASS not only offers degree programs at the undergraduate and graduate level in Arts & Social Sciences but also provides support across faculties in teaching language and Social Science courses.

A conscious effort is made to develop curriculum taught in various programs, contemporary, and at the same time challenging, to foster a spirit of critical inquiry; an urge to discover, learn and reflect on issues facing humanity perennially. FASS provides a learning environment that is interactive and robust, ensuring that students acquire well-developed communication and analytical skills – a habit for independent

thinking and a sense of personal and professional responsibility which employers seek in candidates in today's job market.

FASS currently has four departments: Department of Psychology, Department of Economics, Department of English, and Department of Politics & International Relations. All departments offer BS (Honors) and MS degrees in their respective subjects. A vast number of Majors and Minors are offered to cater to the diverse interests and professional ambitions of students. Students are allowed to choose courses and devise combinations of Majors and Minors which are most relevant to them, while still enjoying a degree which falls under HEC guidelines.

Department of Economics HoD's Message

The critical role of the subject of Economics and the economists in identifying and suggesting remedial measures for multiple problems hindering the socio- economic growth of a society is well recognized not only in Pakistan but also all over the world. At its present stage of development, Pakistan is facing multiple constraints on the way of economic growth due to a lack of professionals having command over knowledge and its application in various areas of development, policy making, implementation and evaluation. Even teaching, research and normal operations of the various institutions in the public and private sectors suffer due to inadequacy of trained human resource. To fill this gap, we have taken the initiative to train the students with the cutting edge knowledge in economics through undergraduate and graduate studies in economics. These students on graduation will be ready to take jobs in the public and private sector and also can start their own businesses and consultancies in their areas of specialization.

Initially the department of Economics was established for teaching the subjects of Microeconomics, Macroeconomics, Economic Analysis and Managerial Economics to support the BBA and MBA programs of Faculty of Management Studies. In pursuance of our long-term vision, BS Economics and Finance program was launched in Fall 2011 by FASS. A separate and independent Economics Department was established to offer various degrees in the said subjects. To further strengthen the BS Economics program, the department was reoriented to offer specializations in Development and Business Economics with the objective to prepare students to work in public and private sectors, specifically, banking and development sectors in the country and abroad. The MS Program was started in Fall 2013 to be followed by PhD in later semesters. So far, seven MS students have successfully completed their degrees and other seven students of are working on their thesis. Thesis of MS students are evaluated by the experts in the respective fields and quality of the research work is ensured rigorously.
